DETAILED ACTION

Allowable Subject Matter

Claims 1-4,6-14,19-23,25-27 and 29 are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-4,6-14,19-23,25-27 and 29 are allowed because the references cited fail to teach, as applicant has, a fine phase detector coupled to produce a fine difference signal based on a phase difference between the inbound serial data and a fine feedback clock that is representative of the at least one high frequency receiver clock; fine charge pump operably coupled to produce a voltage representative of the fine difference signal; coarse phase and frequency detector operably coupled to produce a coarse difference signal based on a difference between a reference clock and a coarse feedback clock that is representative of the at least one high frequency receiver clock; and a coarse charge pump operably coupled to produce a voltage representative of the coarse difference signal, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
